Signs which project into or are placed in the public right of way require an approved "Right of Way Use" permit.

For portable or sandwich-board signs, the owner of the business the sign advertises must ensure the sign is properly anchored to prevent movement. The business owner is responsible for any injury or damage caused by the sign.

Coos Bay design parameters: wind speed 120 mph (3-second gust), roof snow load 25 psf, ground snow load 36 psf, frost depth 12"

8. Illumination: None Interior Exterior Lamps

12. The following information is required at the time of submittal:
- PLOT PLAN** showing location, dimension and type of ALL signs (proposed and existing), building and lot frontage along all street frontages, and the proposed sign's distance from the property lines, vehicular access and pedestrian walkways.
 - SKETCH OR PHOTO** of the advertising copy on the proposed sign.
 - STRUCTURAL ELEMENTS** of the sign including a dimensional diagram of the footing(s). The building inspector may also require wind load calculations and/or engineered design.
 - PUBLIC WORKS PERMIT APPLICATION - RIGHT OF WAY USE** is required if any portion of the sign projects over or is placed in the public right of way, or if the right of way will be temporarily obstructed during sign construction or installation.

Per City of Coos Bay Resolution 17-03, a 5% Technology Fee will be assessed on all permit and plan review fees.

NOTICE: The issuance of a sign permit by the City does not ensure compliance with state requirements. You are encouraged to contact the State Highway Department before applying for a permit to install signs which face, project over or are located within a State Highway right of way.

This permit becomes null and void if work or construction authorized is not commenced within 180 days, or if construction or work is suspended or abandoned for a period of 180 days at any time after work is commenced.

I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with whether specified herein or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction.
