# CITY OF COOS BAY BUDGET MESSAGE - FY 2023-2024

The Honorable Mayor Joe Benetti, members of the City Council, citizen members of the Budget Committee, and the citizens of Coos Bay, it is my honor and pleasure to submit the City's fiscal year (FY) 2023-2024 (FYE24) proposed budget.

The City of Coos Bay's annual budget has been prepared pursuant to Oregon Local Budget Law and by utilizing the following budgetary practices:

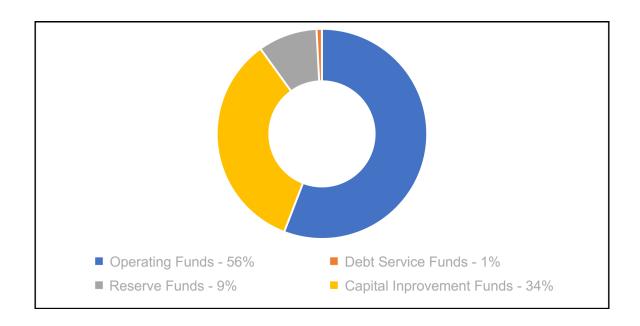

- Revenues are estimated conservatively.
- Expenditures are based on actual experience and incremental increases and/or decreases where needed.
- Reserves should be maintained at adequate funding levels in accordance with generally accepted accounting principles and to provide sufficient cash carryover to meet the city's needs until tax revenues arrive in November.
- Capital equipment and vehicles should be maintained and/or replaced as funds allow, so they are in proper working order.
- While this city budget is a one-year document, a multi-year approach is used to consider the future implications of current fiscal conditions and decisions.

The proposed budget presents my recommendations as Budget Officer and it incorporates the cooperative efforts of the city's management team.

The proposed budget is organized into 16 funds. A fund is a grouping of related accounts used to maintain control over resources segregated for specific activities or objectives. The proposed budget recommendations for all funds and accounts totals \$73,598,285 which includes \$19,700,494 for wastewater capital improvements and \$3,692,407 for street capital improvements.

The 16 funds in the proposed budget are broadly organized into four categories: Operating Funds, Debt Service Funds, Capital Improvement Funds, and Reserve Funds.

- <u>Operating Funds</u> provide for ongoing services such as police and fire protection, building services, street maintenance, wastewater collection and treatment, library services, and governmental administration and risk management activities.
- <u>Debt Service Funds</u> pay for prior debt which was incurred to complete major community capital improvements.
- <u>Capital Improvement Funds</u> provide funding for annual improvements such as street repairs, park enhancements, and wastewater collection and treatment infrastructure repairs and upgrades.
- Reserve Funds provide for a mix of physical improvements, vehicles, equipment, and technology replacements.

The majority of the proposed budget funds contain operational expenditures which are categorized as personnel services or materials and services expenditures.

• <u>Personnel Services</u>: The City of Coos Bay provides our residents with a wide array of municipal services. Police and fire protection, beautiful parks, street repair and maintenance programs, storm water and wastewater utilities, library services, building plan reviews and inspections, along with many other services which are provided by dedicated city employees. To provide these services to our residents, other city employees are required to supply internal functions in areas such as finance, legal, and human resources services.

Employee salaries and benefits are paid from a variety of revenue sources and some employee costs are paid from more than one source, which you will find are detailed near the end of the budget document. Projected personnel costs include contracted salary adjustments for all three of the city's three bargaining units. The current Collective Bargaining Agreements (CBA) are with the American Federation of State, County, and Municipal Employees (AFSCME) and Coos Bay Police Officer's Association (CBPOA) which include a 4% COLA based on negotiated CBAs the Consumer Price Index. At the time of publishing this document, the City is in the midst of negotiating a successor CBA with the International Association of Firefighter's (IAFF). For budgeting purposes, a 3% COLA was included for both IAFF and a 4% COLA for non-represented (management) personnel in the proposed budget.

Personnel expenses (salaries, taxes, insurance, retirement contributions and related employment costs) comprise just over 25% of the city's total operating budget. The city currently employs 129 employees and the proposed budget reflects employment related expenses totaling \$18,707,210 of which a little over 35% of the costs are for pension and health insurance benefits (medical, dental, vision, HSA/HRA, long term disability, accidental death/life, workers compensation, unemployment, etc.). Employment expenses related to the Public Employee Retirement System program (PERS) and health insurance collectively is expected to cost \$7,475,068 during the FYE2023 period, of which \$3,559,210 is for PERS obligations and \$3,919,627 for employee related insurance costs (includes payrol taxes

which funds Social Security, Medicare, etc). The proposed budget anticipates increases in employee related insurance costs (10% medical, vision and dental) over the prior fiscal year budget.

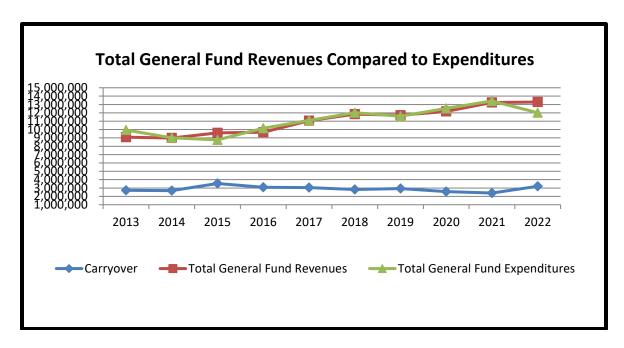

PERS rates are set by the Oregon Public Employees Retirement System every two fiscal years (in odd numbered fiscal years). These rates are based upon several actuarial factors intended to keep the retirement system solvent over time. The chart below provides a visual of the changes in PERS costs over the last ten years.

Materials & Services: Department heads submitted a budget this year that generally reflects, for the most part, a status quo budget from the previous year or small increases to account for inflation and/or the need to replace critical items. The city continues to contract and/or use public / private partnerships for the delivery of certain services. These include contracts with; Coos Art Association for operation of the Coos Art Museum; Coos Bay-North Bend-Charleston Visitor & Convention Bureau for the operation of the Coos Bay Visitor Information Center; Boys and Girls Club for youth recreation services; and Mingus Pool Association for the operation of the Mingus Pool.

**General Fund:** Revenues which comprise the General Fund are derived from: (1) Carryover from the prior budget year; (2) Property Taxes; (3) Franchise Fees; (4) Licenses & Permits; (5) Fines, Grants & State Revenues; (6) Use of Money & Property; (7) Services and Repayments; (8) Other Revenue; and (9) Du Jour Financing Repayment.

The Carryover balance (also known as the ending fund balance) has been a challenge to maintain during previous budget years as our largest revenue source, property taxes, has limited growth potential per Measure 5 and the incremental revenue growth from property taxes is not enough to cover the increased cost of doing business. Below you will find a graft depicting a 10 year history of revenue, expenses and the carryover balance.

The *Carryover* is used to *carry* the General Fund over a four-month period of time where no substantial revenues are received. The carryover is used to pay employees and to pay the General Fund obligations from July 1<sup>st</sup> until mid-November when the city expects the first property tax disbursement from Coos County. During FYE22 and FYE23, the city received federal funding to help support local response to the international COVID-19 pandemic. Those funds have been allocated for continuity of services provided through General Fund support and as way to stabilize the carryover which has been on a downward trend since 2015.

### General Fund Revenue resources are estimated to be:

Carryover	\$4,300,000
Property Taxes	7,209,884
Franchise Taxes	2,095,000
Licenses & Permits	140,800
Fines, Grants, & State Revenues	878,091
Use of Money & Property	130,700
Services & Repayments	2,070,530
Other Revenue	40,050
Du Jour Financing Repayment	1,632,285
Total (including carryover):	\$18,497,340

<u>Street Maintenance and Capital funds:</u> Maintaining the city's street infrastructure is an ongoing concern. The pavement network within the city consists of 130 lane miles of asphalt road, 14 lane miles of concrete road, and 23 lane miles of gravel road (including alleys). In 2015 the estimated total replacement value of the asphalt covered streets was just over \$66M, and per the 2015 Pavement Condition Survey, \$17M worth of improvements were needed at that time to bring the condition of the streets at that time up to a "good" condition. With little doubt that

amount is much higher now. Funding for the Streets Division capital project funds, including sidewalks, is derived from a combination of sources including: (1) the State gas tax; (2) interest from the city's Jurisdictional Exchange funds; (3) federal Surface Transportation Funds; (4) a portion of the PP&L franchise fee revenue; (5) the Transportation User Fee (TUF); and (6) grants. Urban Renewal funding is also available for certain street infrastructure projects.

In all, not counting URA funds, the proposed budget reflects \$4,067,407 in combined resources for use from Funds #2 (State Gas Tax Fund), #39 (Jurisdictional Exchange Streets Reserve Fund) and fund #45 Capital Improvement Fund of which \$3,692,407 is proposed for street & sidewalk maintenance and capital improvement projects. The remaining funds will be use in part to pay personnel, debt service, as well as material and services costs related to maintaining and operating the city's gravel streets, street light infrastructure, signalized intersections, street signs, cross walks, drainage ditches, street sweeping, sanding when necessary, and vegetation management.

<u>Wastewater Funds</u>: The Wastewater Funds are able to cover basic operations; however, in order to meet the demands for improvements, the proposed budget includes rate increase of approximately 6.5%. The rate reflects a policy decision to manage debt as a way to stabilize rates based on the recommendation of the commissioned Sewer Rate – Cost of Service Study. This budget reflects the city's continued effort to complete state mandated capital improvements to the infrastructure at a cost of approximately \$81.4 million (2019 dollars). The proposed budget includes \$12,300,00 in loan and grant proceeds, coupled with resources on hand to undertake \$17,615,988 in wastewater utility capital improvement.

Hotel/Motel Fund: The Hotel/Motel Tax Fund is used in large part for promotion of the community and community events. The Coos Bay–North Bend–Charleston Visitors Convention Bureau (VCB) receives funding through this fund for operations and management of Visitor's Information Center as well as coordinated promotions with our VCB partners, the city of North Bend, Coquille Indian Tribe, and Coos County. The revenue source for this fund is derived from the city's established lodging tax on short term rental businesses operating within the city. The proposed budget reflects a 22% over budgeted FYE23. The increase is based on revenues received to date during the FYE23 cycle.

<u>Capital Improvement Fund:</u> This fund is used to purchase capital items such as police cars or to pay for capital projects. Revenue from biannual timber harvests is the primary revenue source for this fund. Traditionally, 40 to 50 acres are harvested every other year with this budget year including a timber sale. As we are in between timber harvest projects, the proposed budget reflects limited capital purchases.

Rainy Day Reserve Fund: This fund was created during the FY 2008-09 budget year. I am recommending the Budget Committee appropriate the 2.5% of the General Fund beginning balance of FYE24. Currently, the fund has approximately \$1,154,000.

<u>Urban Renewal:</u> The proposed budget includes du jour financing (short term loan) to the Urban Renewal Agency for \$1,518,012 as well \$744,820 for costs to manage the costs associated to manage the two Urban Renewal Districts and their associated projects.

<u>Fund Presentation Revision</u>: As in prior budget cycles, the funds in use are reviewed for compliance with generally accepted accounting practices, as well as for clarity and transparency. While doing so for the proposed FYE24 budget, the 9-1-1 Tax Fund composition was reenvisioned with the result including the full costs associated with operation and management of the North Coos 911 Dispatch Center. Historically, the 9-1-1 Tax Fund only included a portion of the Dispatch Center's costs, with the rest of the related costs recorded and reporting within the General Fund's Division 242 Communications. This presentation is believed to more clearly provide the community with the costs of the Dispatch Center, including an annual transfer from the General Fund intended to be the city's contribution towards emergency dispatch services for Coos Bay.

<u>Recommendation:</u> The recommended budget as presented maintains current city services, and it represents an effective use of the city's resources. Staff looks forward to working with the Budget Committee to review the plan and to discuss alternative approaches for delivering key community services while maintaining the financial stability and continuation of efforts to build a brighter future for the City of Coos Bay.

Respectfully submitted,

Raco

Rodger Craddock, City Manager/Budget Officer April 5, 2023

# **GENERAL FUND**

# **Description**

Taxpayer dollars are deposited in the General Fund, along with franchise taxes, licenses and permits, fines, grant and state revenues, services and repayments, financing repayment and miscellaneous revenues and carryover funds. This portion of the budget is comprised largely of discretionary funds since the Mayor and City Council can allocate the funds to programs and services in any area. In other words, there are few restrictions on how these resources may be allocated.

General fund dollars are used to support such City services as police, fire, planning, engineering, parks, and general government. This fund supports 61.41 FTE.

# **Budgeted Personnel Expenses**

Personnel related expenses listed within this departmental budget reflect the salary and associated benefits for 61.41 FTE. The allocation of personnel salaries charged to more than one Fund, department, or division can be found in the Appendix B at the end of this budget.

# CITY OF COOS BAY 2023-2024 BUDGET SUMMARY OF GENERAL FUND RESOURCES

# **CITY COUNCIL**

# **Description**

The City Council is responsible for enacting city ordinances, formulating general policies, supervising the City Manager, appropriating and approving expenditures of funds as required by city policy, state law and or by the city charter. The Mayor and a six-member City Council form the governing body of the City.

The Mayor presides over the City Council and is elected for a two-year term; each City Councilor is elected for alternating four-year terms. Biennial elections are held in even numbered years. The Mayor and City Councilors also serve as council representatives on city boards, committees and commissions as well as other organizations in the community. Elected positions of the Mayor and City Councilors are strictly on a volunteer and unpaid basis.

# CITY MANAGER'S OFFICE

### **Description**

The City Manager's Office (CMO) provides oversight and direction to ensure that all departments are responding to City Council goals, applying policy consistently, and identifying key issues that need Council direction. The CMO is also responsible for personnel administration, managing the annual budget, oversight over the city collective bargaining agreements, franchises, personnel policies, and provides staff support for the City Council.

# **Budgeted Personnel Expenses**

The City Manager, Assistant City Manager, and the Administrative Coordinator provide administrative related services to both general fund and non-general funded city programs and departments. Personnel related expenses listed within this departmental budget reflect salary and associated benefits for 0.74 FTE. The allocation of personnel salaries charged to more than one department, division, or fund can be found in the Appendix B at the end of this budget.

# URBAN RENEWAL ADMINISTRATION

# **Program Description**

The City of Coos Bay has two separate urban renewal districts. The Downtown District Plan was adopted in 1988 and includes the downtown core area and the industrial/ commercial/recreational areas located along the bay. The Empire District Plan was adopted in 1995 and includes the business district located on Newmark Avenue and the waterfront area along the bay. The purpose of the urban renewal plans is to enhance the livability, health, and welfare of the community which in turn strengthens the economy and future of the City.

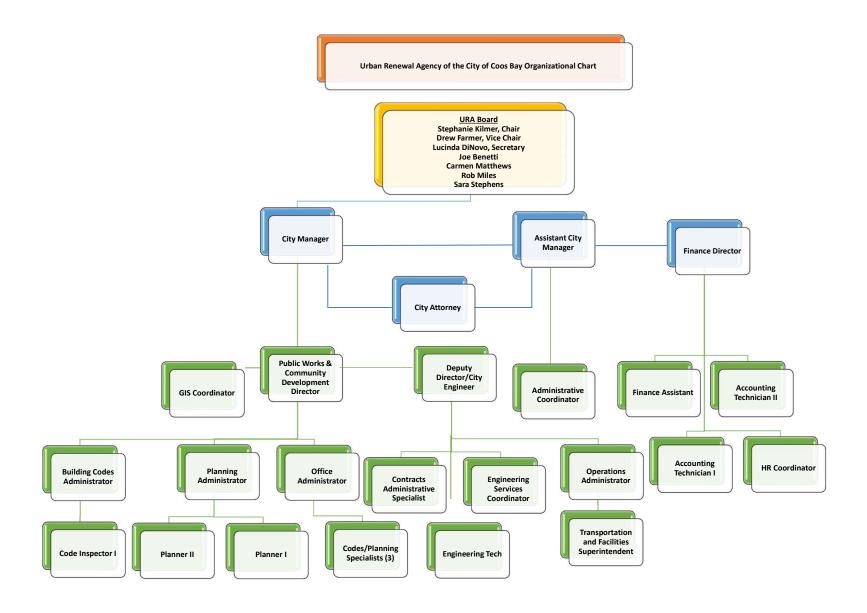

Oregon Revised Statutes (ORS) Chapter 457 establishes and governs urban renewal districts. Administrative costs associated with implementation of urban renewal projects are an allowable expenditure of urban renewal funds. An intergovernmental agreement between the City and the Urban Renewal Agency was implemented in 1992 for the purpose of transferring funds to the City to pay administrative costs.

# **Administrative Services Provided**

- ♦ Professional contracts such as engineering, design, audit, and consulting services
- ♦ Promotion of business retention and recruitment plan
- ♦ Management of the Urban Renewal Improvement Program and other grant/loan programs
- ♦ Management of improvement projects
- ♦ Provide staff to work for the Urban Renewal Agency

# **Budgeted Departmental Personnel Expenses**

Personnel related expenses listed within this budget reflect salary and associated benefits for 4.95 FTE. The allocation of personnel salaries charged to more than one department or fund can be found in Appendix B at the end of this budget.

# FINANCE DEPARTMENT

# **Description**

Services provided are financial, recorder, risk management, and personnel support services for the entire city. Activities are guided by State and Federal statutes, generally accepted accounting principles, ordinances, and policies.

Financial services include budgeting, general ledger accounting, cash receipting, payroll, accounts payable, improvement districts, fixed asset management, and property/liability insurance. Recorder services include Council and budget minutes, public hearing notices, elections, ballots, and liens. Personnel support services include payroll and benefits, health insurance, workers' compensation, compliance with labor contracts, and ongoing labor relations support.

Support is provided to all of the city departments to report revenues, expenditures, and grant management. Staff works closely with the Public Works and Community Development department to track capital projects, improvement districts, engineering and architectural contracts, management plans, Requests for Proposals and Qualifications, and special projects.

# **Budgeted Personnel Expenses**

Finance Department staff provide payroll, accounts payable, accounts receivable and additional accounting services for all city programs and departments. Personnel related expenses listed within this departmental budget reflect the salary and associated benefits for 1.17 FTE. The allocation of personnel salaries charged to more than one department or fund can be found in the Appendix B at the end of this budget.

# **CITY ATTORNEY**

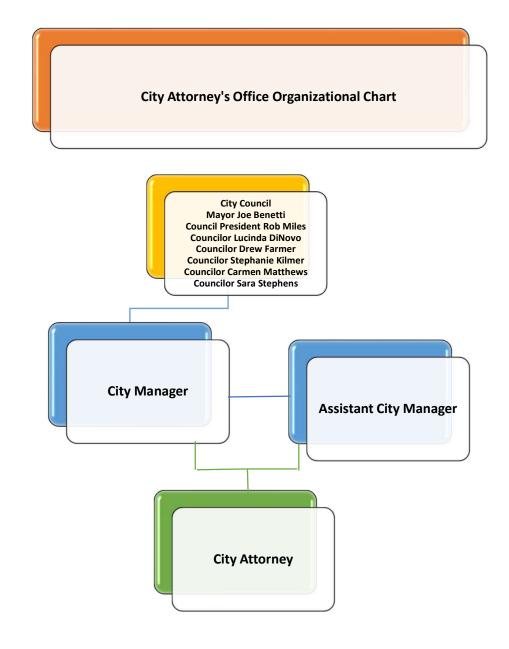

# **Description**

The City Attorney is the legal advisor, acting as attorney and counsel to the City Council, City Manager, city staff, boards and commissions, in matters relating to their official duties, and represents the city in legal proceedings in which it may have an interest. The City Attorney attends the City Council meetings and as requested, attends advisory committee and commission meetings; provides specialized counsel in specific areas such as planning, zoning, and personnel; attends litigation and legal proceedings to which the city is a party; and provides legal counsel for labor negotiations with the city's three labor unions.

The City Attorney's hours are budgeted for 17.5 hours per week. The City Attorney has a key role in labor relations issues. The special counsel line exists to be used if needed to retain special counsel such as bond counsel.

# **Budgeted Personnel Expenses**

Personnel related expenses listed within this departmental budget reflect salary and associated benefits for 0.30 FTE. The allocation of personnel salaries charged to more than one Fund, department, or division can be found in the Appendix B at the end of this budget.

## **CITY HALL**

#### **Program Description**

The City Hall budget includes expenses for the operations and maintenance of the city hall building and contractual custodian services. Materials and services cover utility costs such as electricity, water, cable services, and phone expenses.

All expenses for building maintenance and any physical modifications for better operations are included here as well as the custodial supplies and equipment. This also includes the cost of landscape maintenance; however, the expenses for Parks Division staff to maintain the many park facilities are within the Parks Division's budget.

## **COMMUNITY CONTRIBUTIONS**

#### **Description**

The City of Coos Bay established the Community Contributions section to provide support of community organizations that continually partner with the city to boost service levels to citizens. These organizations, traditionally non-profits, working in the social services field providing much needed support to the community. This section of the budget intends to record the expenditures approved by Council to support various community organizations. Over the past ten years, the amount provided to community groups has averaged 20% of the total State Revenue Sharing funds received from the State of Oregon, with the variation due to annual application submission.

The highest total grants allocated to the community groups was \$64,240 in FYE 11 and the lowest amount allocated was \$17,500 in FYE 05.

As such, there is not a set amount required by resolution or any governing authority (other than the contractual obligation to the Boys and Girls Club for \$10,000) to be provided to community groups. Though there is not a set amount of this supportive funding, a benchmark of 25% of the annual State Revenue Sharing funds the city receives is the goal.

State revenue sharing is allocated on a formula basis that compares the recipient City's consolidated property tax rate, per capita income and population against statewide averages. Over the past ten years, these grants have averaged 20% of the total funds received from the state for revenue sharing, with highest total given in FY11 \$64,240 and lowest in FY05 \$17,500. Funds provided conditionally upon the organization's continued existence. Grant requests are reviewed and awarded through budget process.

## NON-DEPARTMENTAL

#### **Description**

The Non-Departmental budget section accounts for expenditures to provide centralized services to several of the General Fund departments, such as GIS Coordinator and Mechanic's salary and associated benefit costs, internet, property/general/auto liability insurance, printing, duplicating, postage, bad debt expense, bank and credit card merchant fees, tax payments for special districts located within the city limits, appropriation authority for refunds, etc.

Separating the common expenses to all of the General Fund departments/divisions into an internal service section provides the ability, over time, to observe cost trends to better manage and evaluate management activity. It also enhances the ability to distribute costs equitably among the various funds.

#### **Budgeted Personnel Expenses**

Personnel related expenses listed within this budget reflect the salary and associated benefits for 1.79 FTE. The allocation of personnel salaries charged to more than one department, division or fund can be found in the Appendix B at the end of this budget.

#### **NON-DEPARTMENTAL 190**

### OTHER FINANCING USES AND EXPENDITURES

#### **Description**

The Other Financing Uses and Expenditures section of the budget is the mechanism to transfer funds from or through the General Fund to other funds. The Rainy Day Fund transfer is pursuant to a resolution requiring 2.5% of the fund balance to be set aside for specific purposes.

The Debt Service section provides the accounting for the du jour financing (short-term intergovernmental loans to the URA) to convert tax increment revenue into spendable construction funds. This loan is repaid within a few days.

Additionally, pass-through debt activity of the Coos Bay/North Bend Water Board is also recorded within this section. As co-owners of the Water Board, the cities of Coos Bay and North Bend each share in the debt obligations, with each debt issuance held in the name of the cities. The Water Board provides the funding for the annual debt service payments which are recorded in the General Fund's Services and Repayments revenue section. These transactions, the revenue received from the Water Board exactly equals the debt service payments.

The Contingency line item is set aside to fund Council approved, unknown expenditures of the current fiscal year. The intention is to carry as much of this amount over to the next fiscal year as possible. The Unappropriated Ending Fund Balance cannot be appropriated during the current fiscal year pursuant to Oregon Revised Statutes, without reconvening the Budget Committee, and is funds set aside to fund the General Fund departments during the first part of the fiscal year until the tax payments are received in November.

### POLICE DEPARTMENT

#### **Department Mission Statement**

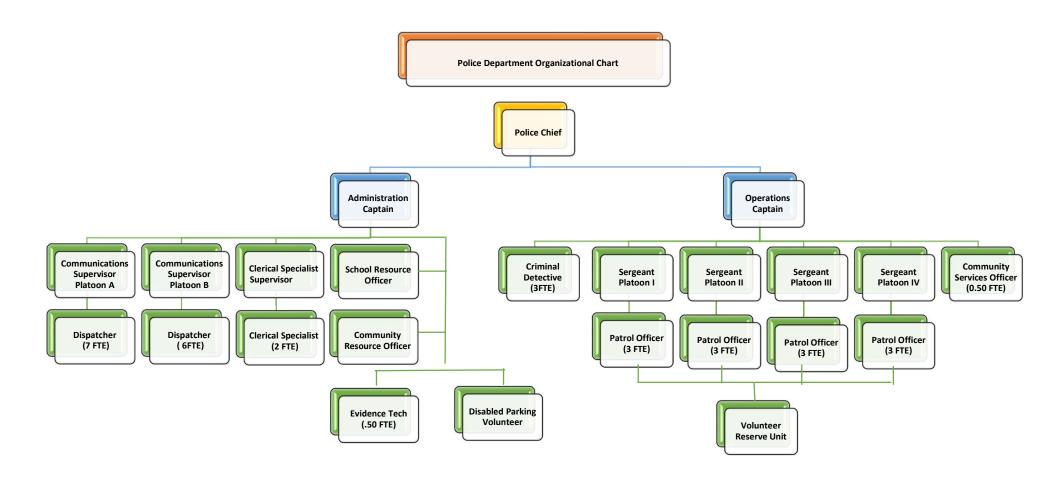

The Mission of the Coos Bay Police Department is to efficiently provide quality law enforcement services to our community by promoting a safe environment through a police-citizen partnership with an emphasis on mutual trust, integrity, fairness and professionalism.

#### **Description**

The department is comprised of the administrative, operations, and support services. Public Safety Communications related expenses can be found in the 9-1-1 Tax Fund 10 budget. Police administration provide leadership to Police Department personnel as it relates to the enforcement of federal and state laws, as well as city municipal codes. Police operations deliver direct law enforcement and investigative services to the community. Police officers handle over thirty thousand calls for law enforcement services each year. Nearly 4,500 of those calls for service require investigation, documentation (written reports), referral and/or follow up actions each year. In addition to their patrol and investigations, officers serve as active members on a number of interagency teams: Traffic Crash Investigation Team, Major Crime and Incident Team, Sexual Assault Response Team, Emergency Response Team, Adult Multi-Disciplinary Team, and Child Advocacy Multi-Disciplinary Team. Support services is responsible for most non-operational, record related activities that allow the Coos Bay Police Department to provide law enforcement services to the community.

#### **Budgeted Personnel Expenses**

Personnel related expenses listed within this departmental budget reflect the salary and associated benefit costs for 28 FTE.

#### **POLICE ADMINISTRATION & OPERATIONS 240**

## FIRE DEPARTMENT

#### **Department Mission Statement**

The mission of the Coos Bay Fire Department is to actively promote, deliver, and preserve a feeling of security, safety, and a quality level of service to the citizens of our community.

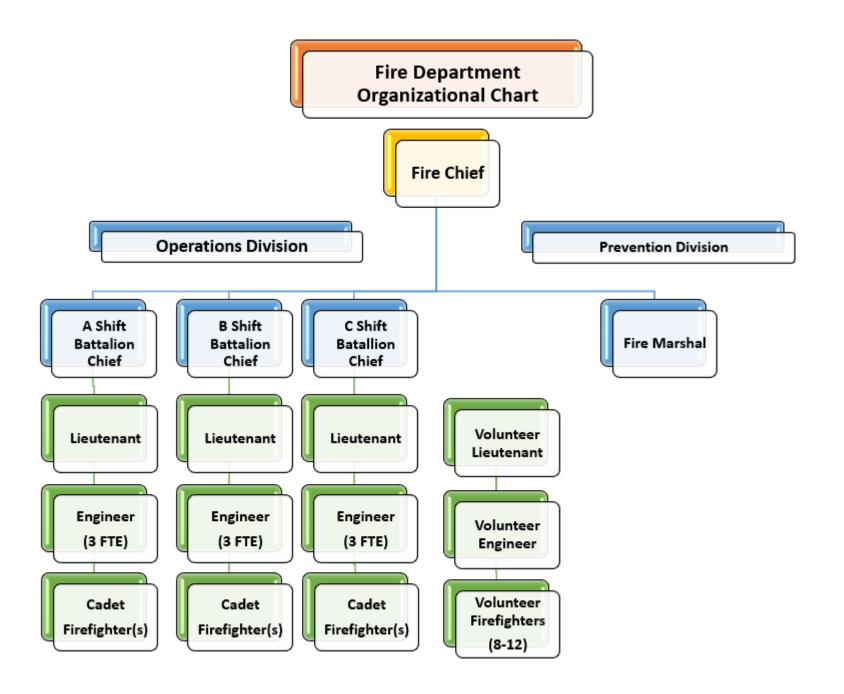

#### **Description**

Services provided by the Fire Department include fire/rescue, emergency medical, fire/safety prevention, and public fire education, training, and emergency readiness. The Chief and Battalion Chiefs provide support, direction, control, coordination, and evaluation of the Department and personnel. Department staff provide emergency services in the areas of hazardous materials, fire, emergency medical, and various rescue practices, and all have both Oregon OSHA and Department of Public Safety Standards & Training certification levels. Cadet Firefighters are students enrolled in the fire science or paramedic program at Southwestern Oregon Community College preparing for a fire service career. Cadets live in the fire station, work with and respond to emergencies with their career staff mentors.

The Department performs a number of routine functions including testing and/or maintenance of apparatus, tools, and equipment; fire and life safety inspections of community businesses; training in routine and emergency operations; and provision of community education aimed at improving emergency preparedness, and fire and life safety to all ages and demographics in the community. Other programs that benefit the community include a disaster preparedness program, school-based fire/safety programs, and citywide safety program administration.

#### **Budgeted Personnel Expenses**

Personnel related expenses listed within this departmental budget reflect salary and associated benefits for 16.25 FTE. The allocation of personnel salaries charged to more than one Fund, department, or division can be found in the Appendix B at the end of this budget.

## PUBLIC WORKS AND COMMUNITY DEVELOPMENT

#### **Program Description**

The Public Works and Community Development Department is the largest of all city departments and is charged with operation and maintenance of the city's infrastructure, as well as administration of several city programs. The following division are within the department, represented throughout the budget in various funds, with a total of 42.94 FTE allocated across these funds and/or divisions. The division details can be found on each division's cover page, preceding their budget section.

Planning Division (General Fund)

Engineering Division (General Fund)

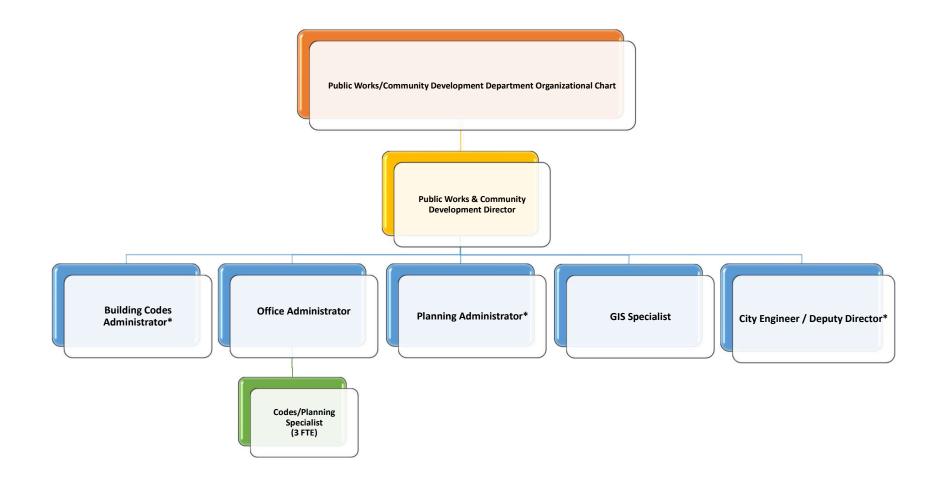

Parks Division (General Fund)

Code Enforcement (General Fund)

Transportation and Facilities Division (State Gas Tax Fund)

Water Quality Division (Water Quality Fund)

Building Code Division (Building Code Fund)

\*See Individual Disvision Organizational Charts For More Detail

## **PLANNING**

#### **Program Description**

Planning is a division of the Public Works and Community Development Department. The budget for Planning includes funding for planning and zoning related activities provided by the Division including personnel costs. Planning staff provide professional planning assistance to the public, City Council, and the Planning Commission. Planning staff strives to provide prompt and consistent responses to inquiries from citizens, elected officials, commission members, staff, and developers.

Planning staff review submitted plans and applications for compliance with the requirements of the city's municipal code and state law. Staff reviews the Comprehensive Plan and enacted ordinances to ensure they meet statewide planning goals, and to reflect the City Council's policy direction. Planning staff also recommends changes to streamline and simplify city review processes and provide services that are increasingly responsive to citizens.

The \$130,000 contractual line item includes outside professional services plus professional services for necessary updates to the Comprehensive Plan and text of the zoning ordinance plus other special planning projects.

#### **Budgeted Departmental Personnel Expenses**

Personnel related expenses listed within this division reflect the salary and associated benefits for 3.77 FTE. The allocation of personnel salaries charged to more than one department or fund can be found in Appendix B at the end of this budget.

### **ENGINEERING**

#### **Program Description**

The Engineering Division budget includes a portion of personnel expenses for the engineering staff. Engineering staff manage surveying and design of city-owned infrastructure improvement projects; estimating project improvement costs; infrastructure improvement; contract administration; maintaining records concerning improvement projects, underground utilities, right-of-way use, survey information, city statistics, all city maps, etc.; performing sewer lateral locations for city projects or to respond to the locate system prior to construction projects; research and write legal descriptions for city easements and property actions; and review building plans for drainage, access, availability of utilities, assessments and easements; inspection of construction on public right-of-way. This division assists all city departments in the areas of engineering, drafting, and map creation, and also provides engineering review of land use projects. Significant assistance is given to the general public in understanding the relationship between city services, right-of-way, and private property interactions.

#### **Budgeted Departmental Personnel Expenses**

Personnel related expenses listed within this departmental budget reflect salary and associated benefits for 1.12 FTE. The allocation of personnel salaries charged to more than one department or fund can be found in Appendix B at the end of this budget.

## PARKS DIVISION

#### **Program Description**

The budget for the Parks Division includes funding for personnel, park operations, park maintenance and utilities, as well as maintenance for operations of the Mingus Pool. Parks personnel maintain the park system, including all park grounds, buildings, structures, equipment, adjacent parking areas, pedestrian and bicycle walks/paths, landscaped and native areas. Staff coordinates with the park hosts and marina host. Staff maintains structures including street furniture, planters, lighting, electrical systems, and irrigation in the parks.

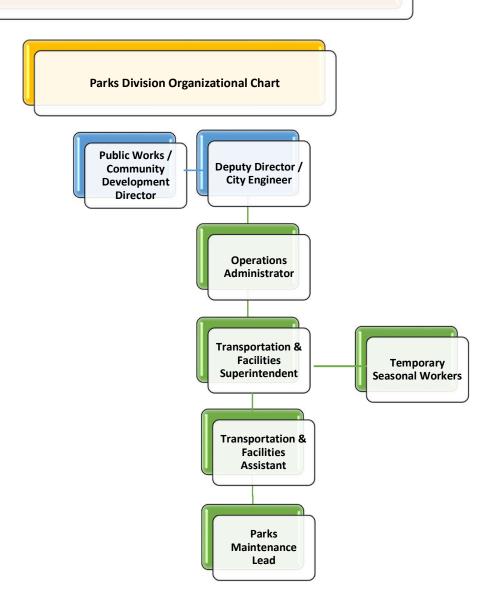

City parks include Mingus Park, John Topits Park, Ed Lund Park, Eastside Park, Windy Hill Park, Taylor & Wasson Street Park, Pirate Park, Empire and Eastside Boat Ramps, Marshfield Pioneer Cemetery, and the Boardwalk. The identified streetscape areas are: HWY 101 north and south merge islands, Newmark, Broadway, Bayshore and Empire Blvd. The Parks Division also responds to maintenance and landscaping needs at City Hall, Ed Lund Building, Scout Cabin, Mingus Park Pool and pool house, tennis courts, Skateboard Park, and Mingus Park ball field.

The Parks Division maintains the mechanical systems of the Mingus Park pool including daily maintenance on the heating system, filtration system, and chemical disbursement for maintaining safe water quality for swimming. Staff supervises volunteers and temporary work crews that are utilized to perform labor-intensive tasks in the park system, including cleanup of identified transient camps on city property. The Parks Division also provides support to various festival activities including the 4th of July celebration, Blackberry Arts Festival, Bay Area Fun Festival, and Clamboree. This includes litter patrol, installation and removal of safety barricades, and responding to any other special requests.

#### **Budgeted Departmental Personnel Expenses**

Personnel related expenses listened within this division budget reflect salary and associated benefits for 2.24 FTE. The allocation of personnel salaries charged to more than one department or fund can be found in Appendix B at the end of this budget.

## CODE ENFORCEMENT

#### **Description**

Code Enforcement is a section of the Building Code Division within the Public Works and Community Development Department. The budget for Code Enforcement includes expenses for the enforcement of the city's municipal code areas focused on dangerous and substandard buildings, as well as nuisance abatement issues, working directly with the city's attorney.

#### **Budgeted Personnel Expenses**

Personnel related expenses listed within this section reflects the salary and associated benefits for 1.05 FTE. The allocation of personnel salaries charged to more than one department, division or fund can be found in the Appendix B at the end of this budget.

## STATE GAS TAX FUND

#### **Program Description**

The State Gas Tax Fund is an operational fund where state gas tax revenues are recorded, as well as expenses related to maintaining the city's 130 lane miles of asphalt road, 14 lane miles of concrete road, 23 lane miles of gravel road (including alleys), and 11 public parking lots. A slight increase to Gas Tax revenue is expected this year. The "Concrete, Asphalt & Gravel" line item is for gravel road maintenance and minor pothole repair.

The staff of the Transportation and Facilities section is within the Operations Division of the Public Works and Community Development Department with primary responsibility to maintain the street and right-of-way system. Asphalt street surfaces are patched and gravel streets are graded with additional gravel as funding allows. Drainage ditches are maintained through a combination of dig outs, brush cutting, and weed killing. Street sweeping is done on asphalt streets and public parking lots. Staff maintains the street signs, working with engineering staff to ensure city maps reflect current signage. Staff also installs thermoplastic crosswalks and parking lines, paints street legends, and coordinates services for major street painting. Brush cutting along City streets to maintain visibility is a major task in the spring growing season, and a lesser task during the summer and fall months. Temporary workers are employed to assist with maintenance related to city streets. Staff has participated in construction projects including assisting blocking and flagging streets for sewer repairs. As a public service and as staffing has allowed, city equipment is used to dig out adjacent sidewalks prior to being replaced by property owners. Personnel also provide support for special events such as Blackberry Arts Festival, 4th of July celebration, Bay Area Fun Festival, and Clamboree. The Division is also responsible for maintaining vehicles and heavy equipment of which there are approximately 80 vehicles and pieces of heavy equipment. Staff also assists maintaining and repairing tools for all departments and fabricating fixtures as time and skills allow.

#### **Budgeted Departmental Personnel Expenses**

Personnel related expenses within this section reflect the salary and associated benefits for 5.52 FTE. The allocation of personnel salaries charged to more than one department or fund can be found in Appendix B at the end of this budget.

#### **Street Infrastructure – Repair & Maintenance Resources**

The City of Coos Bay utilizes several resources to maintain city streets. The following use of resources is proposed for allocating revenue resources. The June 2015 Pavement Management Program data output, along with staff recommendations, is used as a basis for estimates and as a priority guide of which streets require which type of work.

#### State Gas Tax (Fund 2)

The state gasoline tax is the largest resource for road maintenance. These funds are used by the city for right-of-way (ROW) related operations and maintenance. This includes equipment, materials, and personnel. The proposed allocation to the Concrete, Asphalt, and Gravel expense line item is not typically used for major pothole repairs but rather devoted to gravel road maintenance, paint striping, crack sealing, minor intersection improvements, sidewalk repairs and ADA ramps, with most of the funds typically dedicated to residential and local streets; however, use of these funds for maintenance of other portions of the street network could be necessary.

#### **Capital Improvement Fund (Fund 45)**

Surface Transportation Block Grant – Surface Transportation Block Grant (formally Surface Transportation Program, STP) funds are from the Federal Government and are administered by the State of Oregon. The state has recently expanded the allowed uses for these funds which can now be used similarly as state gas tax revenues for all work in the public right-of-way. Staff recommends this resource be utilized to resurface and reconstruct collector and arterial streets not within urban renewal districts or part of the jurisdictional exchange streets. These funds are eligible to accumulate over more than one fiscal year. These funds were last used in FYE 2021 for the Safe Routes to Schools project in Eastside.

Franchise Fees – Two percent (2%) of the PacifiCorp electric utility franchise fee funds are allocated to street projects. These resources will be used for pothole patching projects and street repairs.

Transportation Utility Fee – The City Council enacted a Transportation Utility Fee (TUF) during the 2019-2020 fiscal year which is assessed at \$10 per household and \$20 per business. Staff recommends spending a portion of these funds for pothole maintenance with a majority of the funds going to street repair and reconstruction improvements throughout the city.

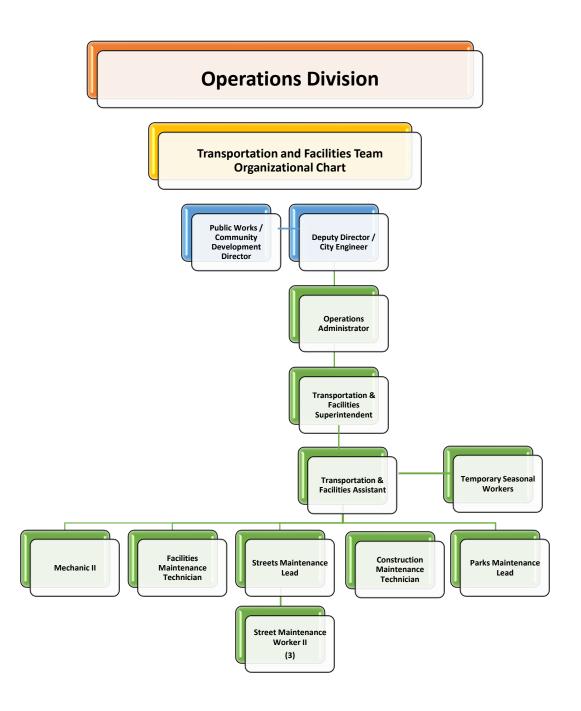

#### **Jurisdictional Exchange Fund (Fund 39)**

The \$4.8 million in the Jurisdictional Exchange Fund (JE) can only be used to maintain the 23 lane miles of streets transferred to the city from ODOT in 2000. The streets are South Empire Blvd, Newmark Avenue, Ocean Blvd, Central Avenue, Anderson Street from 7<sup>th</sup> to 4<sup>th</sup> Street, Commercial Avenue from Bayshore to 7<sup>th</sup> Street, 6th Avenue, D Street, and Coos River Highway. The City Charter further restricted the use of this resource whereby only the interest generated by the \$4.8 million (held in trust in its own interest-bearing account) can be used for the repair and maintenance of the aforementioned streets. For FYE 2024 staff is estimating \$190,000 available for repair/maintenance, which could be used for repairs on Coos River Highway.

#### **Urban Renewal Agency**

Downtown Urban Renewal District – The Special Levy option was first exercised in FYE 2018 for street improvements in the Downtown Urban Renewal district. Carryover plus new revenue will provide approximately \$900,000 for street infrastructure projects in FYE 2024. This resource must be used for capital projects such as reconstruction of streets, curbs, and sidewalks, and cannot be used for pothole maintenance. Staff suggests funds be used for vehicle and pedestrian safety improvements and street rehabilitation.

Empire Urban Renewal District - The Agency previously sought financing for capital projects in the Empire Urban Renewal district to be used for several projects, including reconstruction of streets, curbs, and sidewalks, with \$850,000 budgeted for street improvement projects and an additional \$250,000 is specifically set aside to fund a portion of the roundabout at the Newmark Avenue/Empire Boulevard intersection.

# WATER QUALITY DIVISION

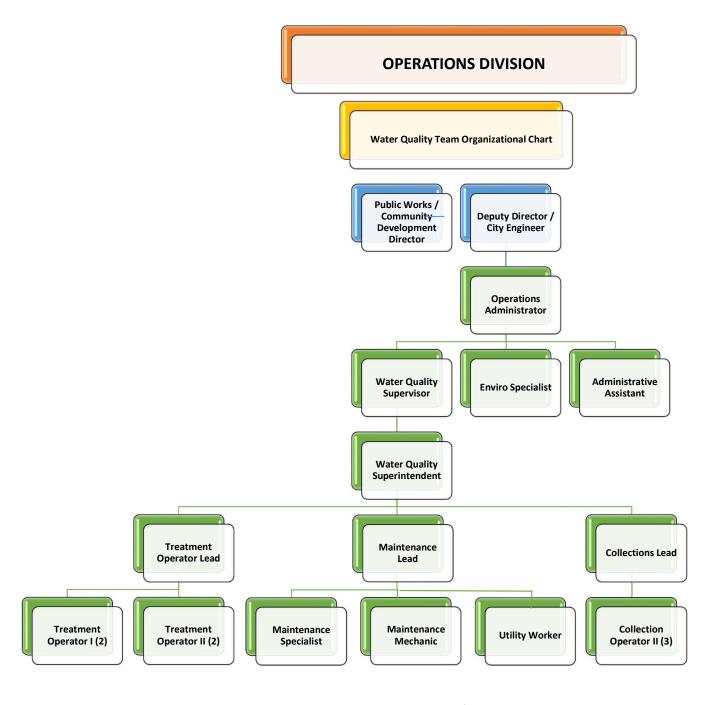

#### **Program Description**

Water Quality funds are used for the operation and maintenance of the city's sewer and storm water system. This will be the third year of exclusive operation and maintenance of the city's sewer and storm water system by city staff which reverted from a previous public-private partnership. City staff provides for collection, treatment, and discharge of the city's wastewater as permitted through DEQ and EPA. City staff cleans, repairs and maintains 23 sewer and 3 storm water pump stations, approximately 90 miles of pipe, two (2) water quality treatment plants, and a facultative sludge pond. Additional maintenance includes catch basins, tide gates, and storm water facilities. Major repair and replacement of the system due to age, condition, changing technology, and DEQ and EPA mandates is a continual focus. City staff maintains the Capital Improvements Plan, determining priorities for maintenance and rehabilitation projects each year.

Industry standards and good fiscal management recommend 45 days of O&M expenses to be held in reserve. Funds are also used as debt service for loans used in the design and construction of the DEQ mandated projects including construction of pump stations, new Plant No. 2, and sewer line projects. Funds are also set aside to purchase rolling stock. This budget also includes a 6.5% rate increase for debt service of water quality treatment and collections upgrades.

#### **Budgeted Departmental Personnel Expenses**

Personnel related expenses listed within this division reflect salary and associated benefits for 25.49 FTE. The allocation of personnel salaries charged to more than one department or fund can be found in Appendix B at the end of this budget.

# HOTEL/MOTEL TAX FUND

#### **Program Description**

The City of Coos Bay established the lodging room tax with the enactment of Ordinance No. 2663 in 1976 (Chapter 3.55 in the city's municipal code). The tax is imposed on lodging businesses intended for occupancy of 30 days or less such as hotels/motels, bed and breakfast, RV parks, and vacation rentals. The current tax imposed on those individuals renting room(s) for short-term use is 9.5%, is collected by lodging facilities and then remitted to the city quarterly. The city contributes 55% of this collected tax to fund the Coos Bay-North Bend-Charleston Visitor and Convention Bureau (VCB), which is outlined within two agreements: Intergovernmental Agreement with the city of North Bend, Coquille Indian Tribe and Coos County and a Management Agreement for operation of the city's Visitor Information Center (VIC).

The Hotel/Motel Tax Fund is used to fund a variety of elements for the following tourist and cultural organizations, with funding intended, either in whole or in part, for maintenance of the city-owned facilities, operational expenses (utilities), or marketing: VCB, VIC, Marshfield Sun Printing Museum, Coos Art Museum, Historic Rail Museum, and Egyptian Theatre. The Hotel/Motel Tax Fund is also used for promotion of community events such as the 4<sup>th</sup> of July celebration including fireworks display, purchase and replacement of Christmas decorations including the two Christmas trees, watering of hanging flower baskets, and Empire streetscapes.

#### **Budgeted Personnel Expenses**

Personnel related expenses listing within this budget reflects the salary and associated benefits for 2.83 FTE. The allocation of personnel salaries charged to more than one department, division or fund can be found in the Appendix B at the end of this budget.

# **LIBRARY**

#### **Mission Statement**

Coos Bay Public Library connects our community to information in various forms, ensures equitable access to information and technology, and provides opportunities for learning, cultural enrichment, and improved quality of life.

#### **Program Description**

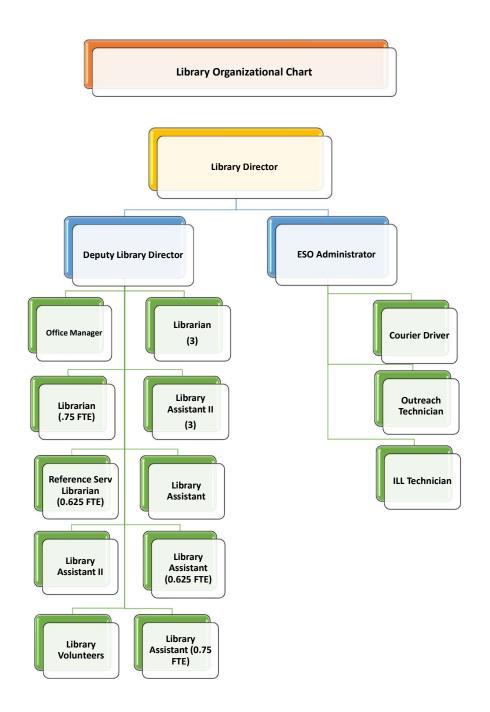

As a member of the Coos County Library Service District, Coos Bay Public Library provides many services for the citizens of Coos Bay and the surrounding area with a state-designated service area of approximately 28,800 people. It serves as a popular materials library, research and information service, educational center, literacy facilitator, technology center, and provides a community forum.

#### 2023/2024 Departmental Goals

- 1. Enhance education and learning for residents of all ages by nurturing early literacy, supporting the success of school aged children, and engaging adults in meaningful learning opportunities.
- 2. Build a strong and resilient community by offering life-enhancing services and skill development.
- 3. Develop a skilled workforce by offering services to increase success of jobseekers and support small business owner's needs.
- 4. Enhance library collections and services to better meet the needs of underserved communities.
- 5. Increase awareness in all demographic groups of the wide variety of resources, services, and programs available through Coos Bay Public Library.

#### **Budgeted Personnel Expenses**

Personnel related expenses listed within this budget reflect salary and associated benefits for 13.86 FTE.

# **BUILDING CODE DIVISION**

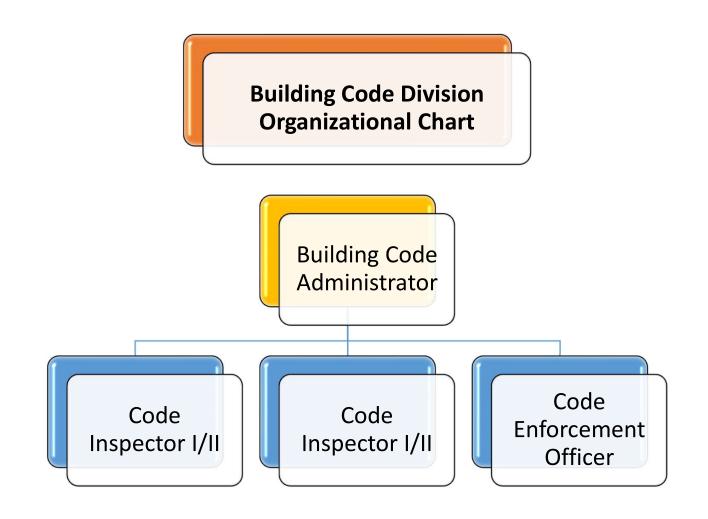

#### **Description**

Building Code division is a subdivision of the Public Works and Community Development Department. The budget for the division includes expenses for the administration of completing structural and mechanical inspections as well as carrying out the plan review program within the City of Coos Bay. By vote of the taxpayers, this budget is mandated to operate as an enterprise fund with the revenue from the permits fully supporting the related expenses. Personnel expenses are cost allocated for several personnel and paid for by this program for complete cost accounting.

The Building Code Administrator serves as the City's Building Official and inspects and evaluates built-on-site and manufactured residential and commercial structures while they are being constructed, remodeled, or repaired. Inspections are done in areas of structural, mechanical, and fire/life safety thereby ensuring compliance with the city's building code. Construction plans are reviewed for code compliance, and permits are issued. The Division is also responsible for implementing the city's dangerous and substandard building code, as well as code enforcement, working with the City Attorney and with citizens to effectively mitigate issues arising from unsafe conditions. Staff evaluates the current valuation tables used to base permit fees which is part of an ongoing monitoring process to ensure that Building Code program operates as an enterprise fund and keeps pace with the changing economy of the construction trades.

#### **Budgeted Personnel Expenses**

Personnel related expenses listed within this division's budget reflect the salary and associated benefits for 3.75 FTE. The allocation of personnel salaries charged to more than one department, division or fund can be found in the Appendix B at the end of this budget.

# 9-1-1 TAX FUND

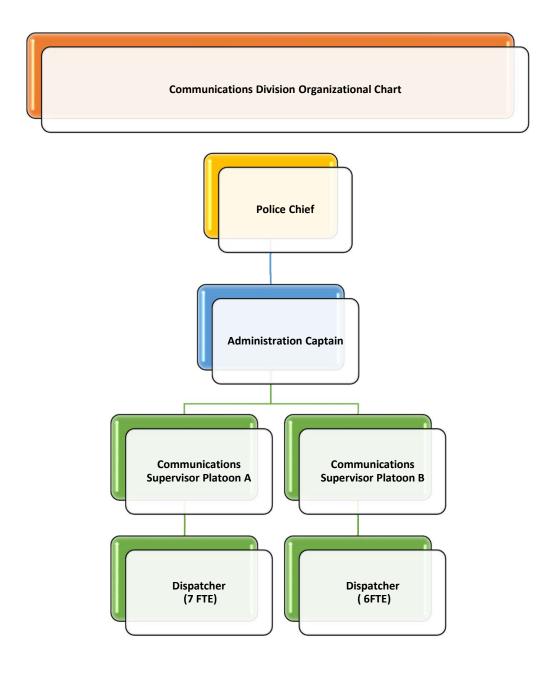

#### **Program Description**

The 9-1-1 Tax Fund accounts for the operations of the North Coos 911 Communications Center. The Center is one of Coos County's two 9-1-1 centers, and provides emergency dispatch services for the cities of Coos Bay, Coquille, and North Bend; Coquille Tribal Police; Tribal Police for the Confederated Tribes of Coos, Lower Umpqua and Siuslaw Indians; and Southwestern Oregon Community College security. Annually they process more than 96,000 calls for public safety services as well as over 17,500 911 calls are received at the emergency communications center.

During FY24, staff is proposing moving the Police Communications section (242) previously budgeted within the General Fund into the 9-1-1 Tax Fund, to provide greater transparency around the full costs of operating the North Coos 911 Communications Center. Historical data for Police Communications 242, as required by Oregon Revised Statues and Local Budget Law, will continue to be reported in the General Fund for all years prior to FY24, until aged out of reporting requirement.

#### **Budgeted Personnel Expenses**

Personnel related expenses listed within this fund reflect salary and associated benefits for 14 FTE.

# **GENERAL OBLIGATION BOND FUND**

#### **Program Description**

The General Obligation Bond Fund receives the property taxes specifically to fund debt service payments for general obligation bonds. The City of Coos Bay has only one general obligation bond which was refunded/re-issued in a previous fiscal year. The original issuance of the GO Bond was for the construction of Fire Station #1 located on Elrod Avenue.

# COOS COUNTY LIBRARY SERVICE DISTRICT – EXTENDED SERVICES OFFICE (ESO)

#### **Program Description**

The Coos County Library Service District Extended Services Office operates all the shared services for the public libraries of the district including the courier van delivery service, online catalog, databases, outreach, and interlibrary loan. The ESO is funded solely through the library taxing district. The city of Coos Bay acts as the fiscal agent. In addition to the city of Coos Bay budget process, the budget is approved by the Coos Library Board and the Coos County Board of Commissioners.

#### **Budgeted Personnel Expenses**

Personnel related expense listed within this fund reflect salary and associated benefits for 4 FTE.

### WATER QUALITY IMPROVEMENT FUND

#### **Program Description**

The Water Quality Improvement Fund budget provides for reserve funds necessary for stormwater collections system maintenance, water quality treatment plant(s) capital projects, emergency/unplanned projects and green parking lots. Money from the Water Quality Fund (fund 3), Oregon DEQ loan and grant programs, and other grant and loan programs are included in this fund, along with interest earnings.

# JURISDICTIONAL EXCHANGE STREETS RESERVE FUND

#### **Program Description**

The Jurisdictional Exchange Streets Reserve Fund budget provides for reserve funds for management of state roadways in our community. The initial \$4.8 million principal received from Oregon Department of Transportation through the 2000 agreement, and subsequently used to establish the Fund can only be used to maintain the 23 lane miles of streets transferred to the city from ODOT. The streets are South Empire Blvd, Newmark Avenue, Ocean Blvd, Central Avenue, Anderson Street from 7<sup>th</sup> to 4<sup>th</sup> Street, Commercial Avenue from Bayshore to 7<sup>th</sup> Street, 6th Avenue, D Street, and Coos River Highway. The City Charter further restricted the use of this resource whereby only the interest generated by the \$4.8 million (held in trust in its own interest-bearing account) can be used for the repair and maintenance of the aforementioned streets. For FYE 2024 staff is estimating \$190,000 available for repair/maintenance, which could be used for repairs on Coos River Highway.

### RAINY DAY RESERVE FUND

#### **Program Description**

The Rainy Day Reserve Fund budget provides for reserve funds for 'rainy day' event. Per city council resolution, Two and a half percent (2.5%) of the ending fund balance of the General Fund is transferred to this fund, annually following the close of each fiscal year.

### CAPITAL IMPROVEMENT FUND

#### **Program Description**

Following an auditor recommendation, the city combined several like funds to create the Capital Improvement Fund. Activity that had previously been reported in the other capital improvement funds shown, will now be budgeted and reported in the Capital Improvement Fund. The following funds transferred their residual equity into the Capital Improvement Fund, however, historical data prior to FY22, as required by Oregon Revised Statutes and Local Budget Law, is still reported in these closed funds until the historical data ages out.

SPECIAL IMPROVEMENT FUND - The budget provided for improvements to the sewer, storm water, or street infrastructure of the City through development of Local Improvement Districts. This fund has most recently been utilized for street asphalt overlays. These funds are used as loan funds to allow citizens to complete infrastructure projects that may not ever be prioritized by the City.

STREET IMPROVEMENT FUND - This budget provided for improvements to City street infrastructure. Historically funds are carried over from year to year to accumulate enough funding to complete asphalt overlay projects over several areas as economically as possible. One of the revenue sources for this fund includes Surface Transportation Block Grant (STBG) Program dollars (formerly STP). These are Oregon Department of Transportation pass-through dollars from the Federal Government and will primarily be used for resurfacing and reconstruction of collector and arterial streets in the City. Another source of street repair funding is the PacifiCorp franchise fee. Approximately 2% of the franchise fee collected goes into this fund. The primary source of revenue is the Transportation Utility Fee.

PARKS IMPROVEMENT FUND - This budget provided for major upgrades and a venue for expenditure of donations specifically for the park system. The funds for park improvements come from a variety of sources: donations, grants, general fund, and bonds. This fund is used to accumulate donations for ongoing improvements in Choshi Gardens. Additional donations will be used to match grant funds for dredging Mingus Pond and constructing fishing structures.

BIKE/PEDESTRIAN PATH FUND - This budget provided for improvements to the bike and pedestrian areas of the City. As required by law, one percent of the funds received from the State gas tax revenue are set-aside in this fund each year specifically for bike and pedestrian improvements in a designated right of way. The money in the fund need not be used in a specific year and can be carried over from year to year to build enough money to do a project. The money can also be used as a match to grants from the Oregon Department of Transportation to construct a large-scale project. These funds were recently used as match a 2-million-dollar grant from the ODOT Safe Routes to School Program.

MAJOR CAPITAL FUND – This budget provided for capital funds for major capital improvements or purchases, such as building improvements and rolling stock purchases for police and fire. The primary source of revenue for this fund was Timber Sale revenue which is generated every two years (even years).

TECHNOLOGY FUND – This budget provided for the capital funds necessary to maintain technology equipment such as servers, firewalls, switches, laptops, desktops, and tablets. The primary sources of revenue for this fund is transfers from several other funds (General, Gas Tax, Water Quality, Building Codes, etc.) and a 5% technology fee added to all city services.

### SYSTEM DEVELOPMENT CHARGES FUND

#### **Program Description**

Following an auditor recommendation, the city combined several like funds to create the System Development Charges (SDC) Fund. Activity that had previously been reported in the other SDC funds shown, will now be budgeted and reported in the SDC Fund. The following funds transferred their residual equity into the SDC Fund, however, historical data prior to FY22, as required by Oregon Revised Statutes and Local Budget Law, is still reported in these closed funds until the historical data ages out.

SDCs may be imposed per Oregon Revised Statute. The underlying theory is that new development that creates the need for additional infrastructure capacity should pay the cost of designing and constructing that infrastructure. SDCs may be imposed either to accumulate the funds needed to fund construction of additional capacity to accommodate growth (an improvement fee), or to recover the cost of existing available capacity that will be used by growth (a reimbursement fee). Both of these fees may be imposed if the jurisdiction can demonstrate that the fees are not each collecting for the same units of capacity.

SDCs may be imposed only for specific infrastructure systems: transportation, wastewater collection and treatment, storm water collection and management, water supply and parks. These are treated as completely separate systems and funds collected for one may not be utilized for any other system.

The City's SDCs were collected for Wastewater collection and treatment, Storm water collection and management, and Transportation. A moratorium on collection of SDCs has been in place since 2008.

### **CLOSED FUNDS**

The following funds were combined into like funds during the 2021-2022 fiscal year, following recommendation of the Agency's auditor. At the beginning of the 2021-2022 fiscal year, the residual equity of the funds was transferred into the identified fund of similar nature through a budgeted interfund transfer. These closed funds are presented for historical purposes only, following local budget law presentation guidelines, and will continue to be presented in the annual budget document through the 2024-2025 fiscal year budget document.

Closed into the Water Quality Fund: Revenue Bond Fund.

<u>Closed into the Capital Improvement Fund</u>: Special Improvement Fund, Street Improvement Fund, Parks Improvement Fund, Bike/Pedestrian Path Fund, Major Capital Fund, and Technology Reserve Fund.

Closed into the System Development Charges Fund: Wastewater SDC Fund and Storm Water SDC Fund.

The Transportation SDC Fund was closed due to all funds being expended in prior year. The fund continues to be presented following local budget law historical data presentation guidelines.

#### APPENDIX A

#### **Time Driven Activity Based Costing**

The City budget is comprised of 16 funds. Employee salaries and benefits are paid from a variety of revenue sources, and some employee costs are paid from more than one source. The City of Coos Bay provides our residents with a wide array of municipal services. Police and fire protection, beautiful parks, street repair and maintenance programs, stormwater and wastewater utilities, and many other fine services which are provided by dedicated City employees. To provide these services to our residents, other City employees are required to supply internal functions in areas such as finance, legal, and human resources services.

Much like other businesses (architects, engineers, lawyers, etc.) the City uses what is known as time driven activity-based cost activity (TDABC) budget model to allocate the cost of staff time spent to the respective fund(s). Staff reviews the hours expended for non-general fund on at least an annual basis and forecasts for the coming year how much time will be required, and the personnel expenses are allocated accordingly.

What makes TDABC different is that you're using the consumption of resources by the activities (or processes) to determine how costs are allocated throughout the entire system. The idea here is that resources (in the case of people, it's time) cost money and so if you can connect how your business processes actually consume these resources, you'll have a pretty accurate picture of what's actually happening in your business. This concept is pretty simple and somewhat analogous to the thought behind driver-based allocations, but there's a subtle difference. The difference is capacity. A highly capable TDABC system uses the demand for capacity to pull costs through the system at *every* level. So, what you end up with is a highly fluid capacity flow map that can dynamically adjust to variations in demand. This system has been used in the City of Coos Bay's budget forecasting method for many years and is an accepted method to evidence to grantors, bond holders, state, and federal agencies that the City allocates their personnel services in a fair and transparent manner. The ability to reflect accurately the eligible use of state and federal dollars ensures the City remains compliant with grant and other covenants when the City accepts such funding.

#### Appendix E

#### **Budget Glossary**

**Accrual Basis:** A method of accounting recognizing transactions when they occur without regard toward cash flow timing.

**Ad Valorem Tax:** A property tax computed as a percentage of the value of taxable property. See "Assessed Value."

**Annexation:** The incorporation of land into an existing city with a resulting change in the boundaries of that city.

**Appropriation:** A legal authorization made by the City Council to incur obligations and make expenditures for specific purposes, and shall be limited to a single fiscal year.

**Assessed Value:** The value set on real and personal property in order to establish a basis for levying taxes. It is the lesser of the property's maximum assessed value or real market value.

Assigned Fund Balance: Amounts that are *intended* by the government to be used for a particular purpose, but are neither restricted nor committed. Intent should be expressed by the governing body itself or a subordinate high-level official possessing the authority to assign resources to be used for specific purposes in accordance with policy established by the governing body. This is also the residual category of Fund Balance for classification for any governmental fund other than the General Fund. When used in the General Fund, the intent is to use the resources in a manner that is narrower than general purposes of the government and cannot cause a deficit in the unassigned category.

**Balanced Budget:** A budget is considered balanced when the fund's total resources of beginning fund balance or working capital, revenues and other financing sources is equal to the total of expenditures, other financing uses and ending fund balance, contingency or working capital.

**Bond:** A written promise to pay a specified sum of money on a specific date at a specified interest rate. Bonds are most frequently used to finance large capital projects, such as buildings, streets and wastewater upgrades.

**Budget:** A written report showing the local government's comprehensive financial plan for one fiscal year. It must include a balanced statement of actual revenues and expenditures during each of the last two years, and estimated revenues and expenditures for the current and upcoming year.

**Budget Calendar:** The schedule of key dates which the City follows in the preparation and adoption of the budget.

**Budget Committee:** A fiscal planning board of a local government, consisting of the governing body plus an equal number of legal voters.

**Budget Document:** The estimates of expenditures and budget resources as set forth on the estimated sheets, tax levy and the financial summary.

**Budget Message:** A general discussion of the proposed budget as presented in writing by the Mayor to the legislative body. The budget message should contain an explanation of

the principal budget items, an outline of the governmental unit's experience during the past period and its financial policy for the coming period.

**Budget Transfers:** Amounts moved from one fund to finance activities in another fund. They are shown as expenditures in the originating" fund and revenues in the receiving fund.

**Capital Improvements Program (CIP):** A plan for capital expenditures to be incurred each year over a period of years to meet capital needs arising from the long term work program.

**Capital Outlay:** Items with a value of \$5,000 or more which generally have a useful life of one or more years, such as machinery, land, furniture, equipment, or buildings.

**Capital Projects:** A long term major improvement or acquisition of equipment or property for public use.

Cash Carryover: Cash Carryover and Cash forward are terms that are used interchangeably. This is a reserve appropriation intended to provide fund equity to begin the next fiscal year. This appropriation is required to fund City activities when revenue is not received. An example is in the General Fund wherein the majority of tax revenue is not received between the months of July and October.

**CDBG Community Development Block Grant Fund:** A fund used to account for entitlement grant funds from the U.S. Department of Housing and Urban Development (HUD).

**Committed Fund Balance:** Constraints placed on the use of amounts are imposed by formal action of the government's highest level of decision-making authority.

**Contingency:** An appropriation of funds to cover unforeseen events and emergencies which occur during the fiscal year.

**Debt Service**: Payment of general long-term debt principal and interest.

**Debt Service Fund:** A fund established to finance and account for the payment of interest and principal on all general obligation debt, serial and term, other than that payable exclusively from special assessments and revenue debt issued for and serviced by a governmental enterprise.

**Departments:** A major administrative division of the City which indicates overall management responsibility for an operation or a group of related operations within a functional area.

**Depreciation:** (1) Expiration' in the service life of capital assets attributable to wear and tear, deterioration, action of the physical elements, inadequacy of obsolescence. (2) That portion of the cost of a capital asset which is charged as an expense during a particular period.

**EMS:** Emergency Management Services

**Encumbrance**: Obligations in the form of purchase orders, contracts or salary commitments which are chargeable to an appropriation and for which a part of the appropriation is reserved. Obligations cease to be encumbrances when paid or when the actual liability is set up.

**Enterprise Fund:** A fund established to account for operations that are Financed and operated in a manner similar to private business enterprise in that the costs of providing services to the general public on a continuing basis are recovered

primarily through user charges. An example would be the Water Fund or Sewer Fund.

**Expenditure**: This term refers to the outflow of funds paid or to be paid for an asset or goods and services obtained regardless of when the expense is actually paid.

**Fiscal Year**: A twelve month period to which the annual operating budget applies and at the end of which a government determines its financial position and the results of its operations. (July 1 through June 30 for all Oregon municipalities.)

**Forfeiture:** The automatic loss of cash or other property as a punishment for not complying with provisions and as compensation for the resulting damages or losses.

**FTE:** Full time equivalent position.

**Fund**: A sum of money or other resources set aside for a specific purpose. A division in a budget, segregating independent fiscal and accounting requirements.

**Fund Balance:** The excess of the fund's assets and estimated revenues for the period over its liabilities, reserves, and appropriations for the period. A negative fund balance is sometimes called a deficit.

**GASB 54:** In February 2009, the Governmental Accounting Standards Board (GASB) issued Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*. GASB 54 changed the number of fund balances categories from two to five and required abolishing special revenue funds that were simply transfers from another fund rather than a segregation of incoming restricted revenue for use for a specific purpose.

**General Fund:** A fund used to account for financial operations of the City which are not accounted for in any other fund. The primary source of revenue are property taxes, franchise fees, state and local shared revenues, licenses and permits, and charges for services provided to other funds. Primary expenditures in the General Fund are made for police and fire protection, public works and general government.

**General Obligation Bonds:** Bonds for which the full faith and credit of the insuring government are pledged for payment.

**Goal:** A statement of broad direction, purpose or intent; the purpose toward which an endeavor is directed.

**Grant:** A donation or contribution by one governmental unit to another unit. The donation or contribution may be made to aid in the support of a specified purpose or function or general purpose.

**Interfund Loans:** A loan made by one fund to another and authorized by resolution or ordinance.

**Internal Service Fund**: A fund used to account for fiscal activities when goods or services are provided by one department to other departments.

**Levy:** The amount of ad valorem tax certified by a local government for the support of governmental activities.

**Local Improvement District (LID):** The property which is to be assessed for the cost or part of the cost of local improvement and the property on which the local improvement is located.

**Maximum Assessed Value (MAV):** The maximum assessed value limitation placed on real or personal property by the constitution. It can increase a maximum of 3 percent each year. The 3 percent limit may be exceeded if there are qualifying improvements made to the property, such as a major addition or new construction.

**Modified Accrual Basis:** A form of accrual accounting in which expenditures are recognized when the goods or services are received and revenues, such as taxes, are recognized when measurable and available to pay expenditures in the current accounting period.

Nonspendable Fund Balance: Amounts in this classification represent funds that cannot be spent such as inventory, prepaid items, long term receivables and loans; or are legally or contractually required to be maintained intact such as the principal of a Permanent Fund (Jurisdictional Exchange Fund).

**Objective**: A statement of specific direction, purpose or intent based on the needs of the community and the goals established for a given program.

**Operating Budget**: The portion of the budget that pertains to daily operations providing basic governmental services. The operating budget contains appropriations for such expenditures as personal services, supplies, utilities, materials, and capital outlay.

**Operating Rate:** The rate determined by dividing the local government's operating tax amount by the estimated assessed value of the local government. This rate is needed when a local government wants to impose less tax than its permanent rate will rise.

**Ordinance**: A formal legislative enactment by the governing board of a municipality.

**Organizational Unit:** Any administrative subdivision of the local government, especially one charged with carrying on one or more specific function (such as a department, office or division).

**PERS**: The Public Employees Retirement System. A State of Oregon defined benefit pension plan to which both employees and employer contribute.

**Performance Measures:** Specific quantitative measures of work performed within an activity or program.

**Permanent Rate Limit:** The maximum rate of ad valorem property taxes that a local government can impose. Taxes generated from the permanent rate limit can be used for any purpose. No action of the local government can increase a permanent rate limit.

**Personnel Services**: Payroll expenses, such as wages, Social Security, medical and dental insurance benefits and retirement contributions.

**Program:** A group of related activities aimed at accomplishing a major service or function for which the municipality is responsible.

**Property Taxes:** Ad valorem tax certified to the county assessor by a local government unit.

Real Market Value (RMV): The amount in cash which could reasonably be expected by an informed seller from an informed buyer in an arm's length transaction as of the assessment date. In most cases, the value used to test the constitutional limit.

**Reserve Fund**: A fund established to accumulate money from year to year for a specific purpose, such as purchase of new equipment.

**Resolution**: A formal order of a governing body, lower legal status than an ordinance.

**Resources:** Total amount available for appropriation, consisting of estimated beginning funds on hand plus anticipated revenues.

**Restricted Fund Balance:** Constraints placed on the use of funds are either externally imposed by creditors (such as through debt covenants), grantors, contributors, laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

**Revenues:** Funds that the government receives as income such as tax payments, fees for specific services, receipts from other governments, fines, forfeitures, grants, shared revenues and interest income.

**Revenue Bonds:** Bonds issued pledging future revenues, usually water, sewer, or storm drainage charges, to cover debt payments in addition to operating costs.

**Risk Management:** An organized attempt to protect a government's assets against accidental loss in the most economical manner.

**Special Revenue Fund:** A fund used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts, or major capital projects) that are legally restricted to expenditure for specific purposes.

**System Development Charges (SDC):** A charge levied on new construction to help pay for additional expenses created by this growth or to compensate for already existing capacity in key facilities and systems already in place which support the new development.'

**Supplemental Budget**: A financial plan prepared to meet unexpected needs or to spend revenues not anticipated when the regular budget was adopted. It cannot be used to authorize a tax levy.

**Tax Rate**: The amount of property tax paid by property owners for each \$1,000 of their property's assessed value.

**Transfers:** Amounts distributed from one fund to finance activities in another fund. Shown as a requirement in the originating fund and a revenue in the receiving fund.

**Trust Fund:** A fund used to account for fiscal activities of assets held in trust by a local government.

**Unappropriated Ending Fund Balance:** An amount set aside in the budget to be used as a cash carryover to the next year's budget. It provides the local government with cash until tax money is received from the county treasurer in November. This amount cannot be transferred by resolution or used through a supplemental budget.

**Unassigned Fund Balance:** Amounts in this category are the residual classification of the General Fund.

**Working Capital**: See unappropriated ending fund balance.
